Starfall has no advertising, does not collect personal information from children, does not sell any information, and uses cookies only for internal website management. By using this site, you agree to our use of cookies and updated Privacy Policy. OK Starfall.com® opened in September 2002 as a free public service to teach children to read. Since then it has expanded to include language arts and mathematics for preschool, kindergarten, first grade, second grade, and third grade. Starfall's emphasis on phonemic awareness, systematic sequential phonics, and common sight words in conjunction with audiovisual interactivity has proven effective in teaching emergent readers. Starfall activities are research-based and align with Individual and Common Core State Standards in English language arts and mathematics. The program emphasizes exploration, play, and positive reinforcement—encouraging children to become confident and intrinsically motivated. Starfall is an educational alternative to other entertainment choices for children and is especially effective for special education, homeschooling, and English language development (ELD, ELL, ESL). It is widely used in schools that serve children with special needs and learning difficulties. Our low-cost membership program expands the free content to include animated songs, mathematics, and reading activities spanning K-3. Membership also supports the production of new books, songs, educational games, and movies. The program, provided by the Starfall Education Foundation, a nonprofit organization, was conceived by Dr. Stephen Schutz. As a child, Stephen had difficulty learning to read due to dyslexia. He wanted to create a website with untimed, multisensory interactive games that allow children to see, hear, and touch as they learn. Brought to you by Zac the Rat.™ The Starfall Website is a program service of Starfall Education Foundation, a publicly supported nonprofit organization, 501(c)(3).
